APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office MAY 09 2006
Returned to applicant for correction
Corrected application filed
Map filedAUG 10 1961 under 19899

The applicant hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

1. The source of the proposed appropriation is Underground
2. The amount of water applied for is 0.0424 cfs 10.0 AFA
(a) If stored in reservoir give number of acre-feet
3. The water to be used for industrial
4. If use is for:
(a) Irrigation, state number of acres to be irrigated
(b) Stockwater, state number and kind of animals to be watered
(c) Other use (describe fully under No. 12. "Remarks")
(d) Power:
(1) Horsepower developed
(2) Point of return of water to stream
5. The water is to be diverted from its source at the following point within the NE½ of the SE½ of Section 35, T.20N., R.26E., M.D.M., or at a point from which the east quarter corner of said Section 35 bears North 19°59' East a distance of 318 feet.
6. Place of Use within portions of the NW¼ NE¼, NE¼ NE¼, SW¼ NE¼, SE¼ NE¼ and NE¼ SE¼ of Section 35, T.20N., R.26E., M.D.M., specifically within Churchill County Assessor's Parcel Number 9-271-56.
7. Use will begin about January 1 and end about December 31 of each year.

- 8. Description of proposed works Drilled well, pump and pipeline.
- 9. Estimated cost of works \$50,000.00
- 10. Estimated time required to construct works 3 years.
- 11. Estimated time required to complete the application of water to beneficial use 5 years.

12. Remarks: Water diverted from well will be in support of commercial and industrial uses related to a proposed 118-acre business and industrial park on APN 9-271-56.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

Any well drilled under this permit shall be drilled in what has been described in the United States Geological Survey Water Supply Paper 2263 as the intermediate alluvial aquifer. In no instance shall the seal on this well be less than 100 feet below ground level.

This permit is issued subject to State Engineer's order 1116, which limits diversion to 4,000 gallons per day.

This permit is issued for service at the described place of use. Upon cessation of pumping for industrial purposes at this place of use, water under this permit shall return to the source and no application to change manner or place of relinquishment will be allowed. (Continued on Page 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.040 cubic feet per second, but not to exceed 4.48 Acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 8, 2010

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

January 8, 2015

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E., State Engineer of Nevada, have hereunto set my hand and the seal of my office,

this 8th day of January A.D. 2007
